

Talk to Me press release

The learning disability charity Mencap is 75 years old.

Mencap has helped to make things better for people with a learning disability, but:

- 2 out of 3 adults in the UK do not know what a learning disability is.

- 2 out of 5 adults say they have not seen someone with a learning disability in the media in the past year.

- 2 out of 5 adults say they do not know ‘the right way’ to talk to someone with a learning disability.

- 3 out of 5 adults say they have seen someone be rude to or about someone with a learning disability.

Mencap’s ‘Talk to Me’ campaign will help people to understand more about learning disability.

Mencap ambassador and CBeebies presenter George Webster said, “Talk to us and get to know us.”
